

# HORUS CRYPTO

Official Whitepaper  
Version 1.0  
February 2026

---

## Introduction .1

Horus Crypto (HORUS) is a fixed-supply BEP-20 digital asset deployed on the BNB Smart Chain.

The project is designed around structural transparency, immutable contract logic, and community-oriented ecosystem growth rather than speculative token mechanics

.The token was officially deployed on 8 February 2026

---

## Token Overview .2

Token Name: Horus Crypto

Symbol: HORUS

Network: BNB Smart Chain

Standard: BEP-20

Decimals: 18

Total Supply: 250,000,000 HORUS

Contract Address:

0xfecfcfd3e136a1023e9e238d231805742a0ec40f0

.The total supply is permanently fixed

.No additional tokens can ever be minted

---

## Core Design Principles .3

:Horus Crypto is structured with the following characteristics

No mint function	•
No burn mechanism	•
No transfer tax	•
No blacklist functionality	•
No freeze capability	•
No withdrawal limits	•
No hidden balance modification	•
No upgradeable contract logic	•

.The contract operates without privileged administrative supply alteration

---

## Token Allocation .4

:The 250,000,000 HORUS supply is distributed as follows

Liquidity Allocation	10%	•
Treasury	35%	•
Vault Guarantee Reserve	20%	•
Marketing	15%	•
Team Allocation	10%	•
Operations & Development	10%	•

.All allocations are transparently visible on-chain

---

## Liquidity Structure .5

.Horus Crypto is paired on decentralized exchanges under the HORUS/WBPNB pair

.Liquidity expansion follows structured ecosystem growth phases

.Liquidity management occurs externally via decentralized exchange mechanisms

.The token contract itself does not contain internal liquidity control logic

---

## Horus Vault Utility .6

.Horus Vault is a separate verified smart contract designed for voluntary token locking

:Lock durations and reward structure

- Days — 2% 30 •
- Days — 8% 90 •
- Days — 18% 180 •
- Days — 40% 360 •

.Participation is voluntary and governed by predefined smart contract logic

---

## Sale Clarification .7

:Horus Crypto did not conduct

- (Initial Coin Offering (ICO) •
- (Initial Exchange Offering (IEO) •
- Public Presale •
- Private Token Sale •

.No fixed token sale price was established

.The token price is determined exclusively by open market trading on decentralized exchanges

---

## Community Growth Model .8

.Horus Crypto is structured to support community-driven ecosystem expansion

:The project emphasizes

- Transparency •
- Infrastructure stability •
- Gradual liquidity development •
- Long-term structural growth •

---

## Smart Contract Verification .9

.The Horus Crypto token contract is fully verified on BscScan

.The Horus Vault contract is independently verified

.No hidden administrative supply functions exist

---

## **Risk Disclosure .10**

.Digital assets are subject to market volatility

.Horus Crypto does not guarantee price stability or financial returns

.Participation in decentralized markets carries inherent risk

---

## **Legal Disclaimer .11**

Horus Crypto is a decentralized digital asset and does not represent equity, securities, or  
.financial instruments

.Nothing in this document constitutes investment advice

---
